The project with Italy is very important for us. Because we can learn about a different culture.

The capital of Italy is Rome and the country's official language is Italian. Rome which has important historical buildings like St. Angelo's Castle and The Colosseum is interesting. In addition to them, Fountains in Rome are very beautiful. So Italy is a country worth visiting.

The project is helping me to recognize a new country. And I think going to Italy would be fun.

İpek Deniz ALPDOĞAN

We have been working on a project with Italian students and their teachers for a year. And it is so important for learning about different cultures.

Italy is a country worth visiting. Especially Rome which is the capital city of Italy. Because Rome has historical places like Fountains and bridges. Also their cultures are different from our cultures.

So I expect to learn the culture of Italy with this project and want to go to Italy.

İrem ŞİMŞEK

I have been interested in art and history since my childhood. I noticed that Rome is one of the best places which is worth seeing. Ruins of Renaissance and fountains has attracted me most.

Thanks to this project. I have learned a lot of things about Italy and Rome. I could learn Italian culture and Italian words from native speakers. On the other hand , we told our culture and language. I really enjoyed it.

Asena ODABAŞI

I am curious about Italy. Learning a different culture is really exciting for me. I want to have friends from Italy. I would like to stay in Rome, because it is the capital of Italy. It is exciting that Italy looks like a boot .

I learn new language with this project. I will recognize different people. I believe that something new about this project will happen soon.
