

ITALY; A COUNTRY WORTH VISITING

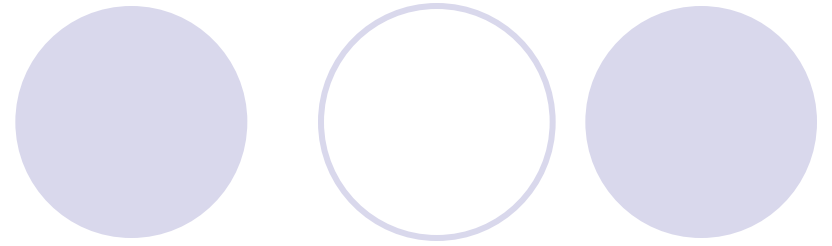

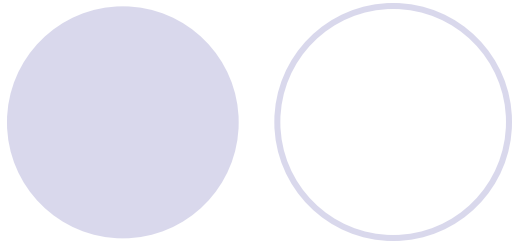

Group Leader: Esra Güvenir

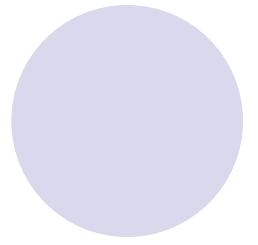

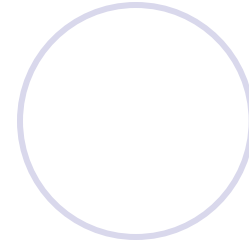

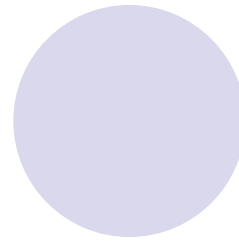

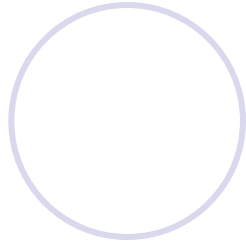

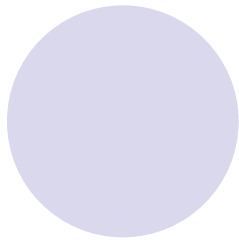

Group Members:

Simay Türkmen, Meltem Fetvacı

School Year: 2011-2012

Coordinator: Prof. Barış Toklucu

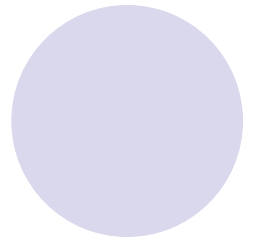

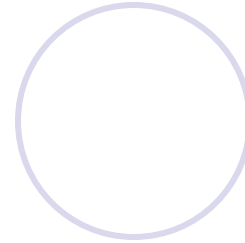

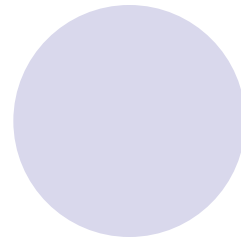

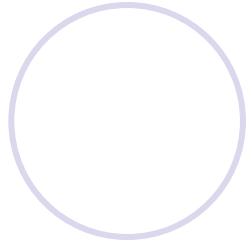

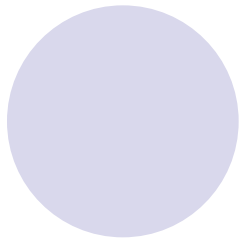

This project is very important for both countries. Turkey and Italy have different religion, culture and language. Italy is a very beautiful and important nation. In fact I didn't know anything about Italy. But now, thanks for this project I learnt many interesting things about Italy.

Italy has an exciting culture and history. Italian is the most spoken language in Italy. Italy is worth visiting. Rome is the capital of Italy and this city is fascinating. I enjoy this project. I think we should visit this country.

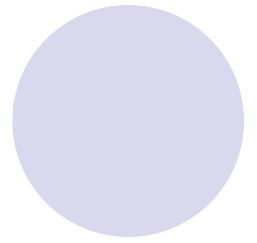

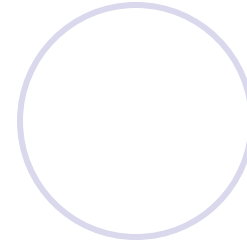

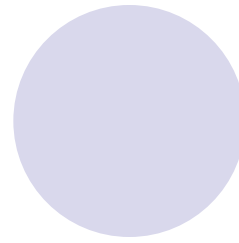

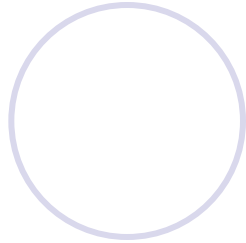

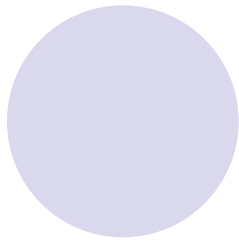

Esra G.

Italy and Turkey have different cultures. I'm very curious about Italy. This project gave me information about Italy. I like it very much. I have heard many interesting things about Italy before. Especially, Pisa Tower is very exciting. Italian pronunciation is difficult when I first heard.

Italy is a Mediterranean country. I think Italian people are hospitable. There are many places to visit in Italy. I'm sure, I will have good time through this project.

Meltem F.

When I heard that I would participate in this project, I was very happy. Because through project, I will have opportunities to meet people who live in Italy and are from different cultures and also I will meet people who have Italian culture. This project is an important chance to see Italy's own culture, its historical structures and people. First of all I can improve my foreign language skills and I will see a new and different country by means this project.

I had no adequate information about Italy before participating in this project. Solely; by means of this project I had chance to know Italy's wonderful architecture, geographical position and traditional foods. I have learned from my friends who went other foreign countries how to make friendship with other people without discrimination of tongue, religious and race.

Finally I believe that, like my friends, I am going to make good friendships with Italian students.
