~~_____ I think this project is very important. I am very~~
glad to be a part of this project. I and my group friends
wonder your life styles and culture.

I would like to see your fashion, your
streets, your historical places. I imagine going shopping
in your wonderful country.

Hilal U.

This project intends to make cultural interaction between two European countries, Italy and Turkey.

Reflection is very important because we are recognizing Italy. We are searching data from encyclopedia and internet. This project has helped us knowing Italian's art, science, sport and cinema.

I found a great country, culture, history and cities through this project. This is why we should continue this project later, too.

Ogün S.

This project is very important and international for me. Through this project I both have fun and learn a lot of things about your country. Also I am very happy to have opportunity to introduce my own country to you.

Italy is a fascinating country. Rome is an excellent city. I want to thank everyone to give me this opportunity to meet you through this project.
